Human Resource Administrator, Maxine Harrison, present, stated it is our understanding that if we come up with the match, we will get our 15 seater in four months. This is for the elderly. The State will give us operating money for 1 year. It was questioned why go to State instead of Federal as this is what the office is suppose to do and what the van would be used for. Secretary Rabbithead read the resolution. Mr. Morgan was asked if he had anything to add. Response was we had trucks passing through the Reservation hauling chemicals about a year ago. Mr. Rabbithead and I attended a meeting and this came up where tribes are now developing programs to protect the reservations from any type of chemical spill. On this reservation, we did not have any established yet so we are in the process of getting our own established. Hopefully, we will have a toxic waste clean up crew available in case we have any trucks wreck or have a large spill on the reservation. We are well into the EPA Program at this point here and we would like Tribal Business Council backing on this. Discussion on boundaries, coal gasification plant and record tracks. ITEM 11: RESOLUTION/PURCHASE OF POUCH POINT BAY. Res.#92-049
This resolution pertains to the purchase of Pouch Point Bay subsequent to the Natural Resource Department completing an up-to-date inventory and completing all necessary documentation. Resolution was read by Secretary Rabbithead. Mr. Morgan was asked if he had anything to add. Response was one year ago this was brought to the Business council and at that time we were requested to run it through the Economic Development Team. That was completed, went to the committee, they reviewed it, went down and did some depth sounds on the lake and found it feasible for the Tribe to purchase the recreation concession stand from the Brunsells. A week ago, we updated the inventory and they have added more. At this time, I'll recommend that the Tribe move to take over the concession stand so that we could get in immediately, probably next week. Fish and Game has some contacts for someone to sublease the concession stand this year but next year, we will go directly back to operations by the Tribe. If that does not go through then, the Recreation Department would take over the whole thing for the Tribe. There was a question on who owns the land. Response was it was tribal land. It was also questioned if the Brunsells had a long term lease with the Tribe and if the Tribe at any time assisted the Brunsells in setting up the business. To Mr. Morgan's knowledge - no and that was one of the reasons for running it through EDA. It was asked of Mr. Morgan where the money was going to come from. Response was we have informed the Brunsells that at this time, the Tribe has no money for the purchase and they are still agreeable to wait. It was stated so this resolution is asking for a committment to purchase when money is available. Mr. Morgan was questioned if he was aware of an agreement that the Tribes signed off on with Pouch Point and Indian Hills for an application of \$50,000 per site. The Tribe agreed that they get the money. Question asked by Mr. Morgan, the Brunsells? Response was yes, are you aware of that? 1983 or 1984, thereabouts - they got it and so did Indian Hills. Mr. Morgan's response was I wasn't aware of that. I've only checked with the assistance of Tribal Credit Programs. It was questioned if this was a grant. Response was yes. Chairman Wilkinson stated, so, technically, that improvement should belong to the Three Affiliated Tribes. He recommended to the Council that this

PURCHASE OF POUCH BAY RESOLUTION (CON'T):
resolution be tabled until Mr. Morgan reviewed the files. Question was raised on what are we getting for the \$23,000. Is a list provided. Response was yes. Discussion on personnel and inventory list. Chairman Wilkinson entered a motion. Councilman Mossett made a MOTION to purchase subject to the availability of funds. SECONDED by Vice-Chairman Hall. Discussion: Chairman Wilkinson stated I believe that if the Brunsells received a grant through the Three Affiliated Tribes to build, construct or improve the property, that we should not buy something that we already own. More discussion on grant. MOTION and SECOND AMENDED subject to the availability of funds subject to investigation if they were purchased and built with Tribal funds, it should be given to us but if they were grant funds from another source and the Tribe didn't expend any money, then purchase it.

ITEM 19: LOUELLA YOUNG BEAR REQUEST:

Louella stated they called for an Elderly Meeting in Mandaree. Only 5 or 6 people showed up. They here rumors so they come today to try to clear up these rumors. We have to be told and know the truth of things. When we know the truth, then we're going to unite and be one side. If we keep on this way, we may lose the whole reservation, just through this. It's getting to be real bad so that's why we called the Elderly together. Nobody came and nobody is interested, Before we get into anything serious, I'd like to request that all of us throw away those rumors, get together and some real things going in each community. I'm saying this to you as an elderly. For this reason, we called a meeting, we're here to take a little report back to Mandaree. You're a fine bunch of young men with a lot of education.

We wanted to take the kids for training first get the word out and then present a resolution later on cause we don't know that much about it except the information that is provided. Is this money going to be reimbursed from JOM? It was suggested that the school boards help as they have a lot of travel money at times, as they are really involved in the youth, they should share some of the cost or reimburse us. ITEM 31: RESOLUTION/M, R & I PRIORITIES:
Resolution read by Secretary Rabbithead.
Councilman Gillette was asked if he had anything to add. He stated our differences seem to be with the Mandaree section of this whole project. Mr. Morgan has informed me again that Mandaree Section with \$60,000.00 to \$70,000.00 worth of renovation can be transferred over the Bureau of Reclamation. They inturn will immediately take possession and be responsible for future renovations according to what we want.

Mr. Morgan stated that's according to Richard Isler Councilman Gillette stated so that would take care of Mandaree. Once we do those renovations, Bureau of Reclamation takes over, Mandaree Community will get free water starting then. Mr. Morgan stated when we proposed it to Mr. Isler, he said that if we could put that much money in the Mandaree project, he would be able to utilize O&M funding through his office to continue to renovate the Mandaree water treatment plant and I asked him twice to make sure he would do it. We were talking about getting it done.

PRIORITY RESOLUTION (CON'T):

Councilman Gillette stated but that was coming later to all the communities that are on M, R & I.

Chairman Wilkinson stated this resolution would have no impact on the resolution previously passed by Council which authorized the construction of all four treatment plants at \$3.7M, is that correct?

Mr. Morgan stated further discussion on that is the Tribal Business Council do not want to eliminate Mandaree off of the M, R, & I Project at this time in any way to show that Mandaree will be left off for fear that later on, they'll come back and say OK you agreed to leave Mandaree off and we could not come up with funding. He further stated the first resolution still stands on all four treatment plants unless it's amended or changed in any way.

Chairman Wilkinson stated my concern is that currently, all four water treatment plants will be built at the same time without a priority ranking. That plan is being developed right now. Council authorized them to construct all four of them at HKM's estimate. I want that clearly understood.

Councilman Gillette made a motion to approve resolution prioritizing the M, R & I work, seconded by Councilman Mossett.
