IV. APPROVAL OF AGENDA:

Quest Star-

V. APPROVAL OF MINUTES:

VI. Quest Star

Jay Reese, Paul Matheny, Jerry Hamilton, Jennifer

Jay Reese

1922 the year they started their business. Mountain field design was their previous name. Three and half times the size of Whiting. Own a natural gas utility. They own 2500 miles of pipeline, Quest Star Pipeline. Quest Star Gas is another company that they own. EMP fastest growing company they own. Astonishing period of growth for their company. Seventeenth largest oil company. Experience Shell drilling. Drilled a lot of horizontal - one million. Good with communities. They are available and accountable. Spending - 2.2 million in just drilling wells in the United States. We are active in the Balkan but just haven't drilled yet.

Louisiana drilling -

Hanesville Shell - another horizontal drilling.

Texas Pan Handle - Granite wash play, drilling down to 1600 ft.

Western Oklahoma - New Play.

Paul Matheny

To give comfort to Council that they are experienced.

VII.

XIII. ADJOURNMENT:

Meeting ended at 1:20 P.M.
