BIA that pit bean withpu permit on tribal site paid dues and Phase 2 is coming up until Baker's watch. Desaril report doesn't specify the land range the site he expected. NRD serve notice to cease and desist. Directed the BIA and the Tribe. It does not belong to Mr. Danks. Extreme bad cost should be issued today and have TERO license to gain. Its already built and committee should hire Vance Gillette to settle this. Baker can't begin environmental code is done.

**17. SIDRICK BAKER – LAND ISSUES:**

Give the 10 acres back to the family. It was wrongfully bought ....no documents has Clancy ever paid their mother for it. No documentation with BIA/Tribe. Their was a rig and had to pay Lone Fights. There is no land transactions in the BIA no record saying Clancy Lone Fight is the owner. This needs to be reserached. According to policy if tribe has purchased land we can not sell it. It should have been settled at the BIA. Clancy went to Marcus Levings And Clancy said he could not pay the land, so the tribe bought it and put the deed in his Home. House sits on Clancy's land. I'd check with the BIA when we rec'd infor we depend on receiving this is exactly what we were waiting for. Before we got any further we should have I checked. Mary Jane told me that land around the house was not to be included in landsale. Recommendation:

To get the land surveyed and bring back.. It is not a land exchange.
