A bow must be pulled, held and released by hand. Any release aid may be used providing it is hand operated, the shooter supports the draw weight of the bow, and the release is not attached to any part of the bow other than at the bowstring. A compound bow used for hunting deer must have at least 35 pounds of draw at 28 inches or less draw length. Recurve and long bows used for hunting deer must have at least 35 pounds of draw at 28 inches. Arrows must be at least 24 inches long, tipped with a metal broadhead, with at least two sharp cutting edges, and have a cutting diameter of at least 3/4 inch (i.e., not able to pass through a 3/4 inch ring). It is illegal to hunt big game with barbed arrows (barbed refers to an arrowhead with any fixed portion of the rear or trailing edge of the arrowhead forming an angle less than 90 degrees with the shaft). Broadheads with mechanical or retractable blades are legal. Telescopic sights, range finding devices, battery- powered or electronically lighted sights or other electronic devices attached to the bow, or the arrow, are not permitted (exception: a lighted nock and recording devices which do not aid in range finding, sighting or shooting the bow are permitted). Handheld range finding devices are legal. Arrows capable of causing damage or injury in excess of that inflicted by the cutting edges of the broadhead are prohibited (e.g., explosive arrow points, arrows tipped with drugs or chemicals, and pneumatic or hydraulic shafts are illegal). No firearms, except handguns, may be in the hunter's possession while hunting with a deer bow license. However, handguns may not be used in any manner to assist in the harvest of a deer with an archery license.

Crossbows are legal for TAT Tribal Members ONLY during the 2022 Deer Bow season.

Crossbows are legal for Non-TAT Members who are disabled or handicapped (i.e. paraplegics and/or having lost the use of one or both arms) in which they need to apply for and possess a permit from the TAT Fish & Wildlife Department Director.

Crossbow Restrictions:

Crossbows must: a) have a peak draw weight of at least 75 pounds, b) be equipped with a working safety to prevent accidental firing, c) use arrows or bolts at least 14 inches in length. Crossbows equipped with pistol grips and designed to be fired with one hand are illegal. Crossbow hunters may use telescopic, battery powered, or electronically lighted sights not exceeding a maximum power of eight, but must comply with all other archery equipment regulations listed above.

Other Firearm and Archery Equipment Restrictions – it is illegal to go afield with a firearm or bow and arrow while intoxicated or under the influence of alcohol or any narcotic drug, barbiturate or marijuana.

6. HUNTING AREA RESTRICTIONS:

Hunters will only be allowed to fill their permit within the unit designated on their license.

It is unlawful to leave open any gates, bars, or other device used to enclose any lands upon entry or exit.

It is unlawful in any way to cut, remove, or lay down any fence to gain entry to any land for the purpose of hunting.

It is unlawful to shoot, destroy, molest, mutilate, or remove any signs.

POSTING: It is unlawful to hunt on lands legally posted without first obtaining written permission from the owner or tenant. It is unlawful for anyone but the owner or tenant to post land. Legal signs shall give notice that no hunting is permitted and shall display: NAME, ADDRESS OF OWNER OR TENANT and DATE OF POSTING. Signs must be every eighty (80) rods on unfenced lands and at every corner and access point on fenced areas.

PLEASE OBTAIN WRITTEN PERMISSION FROM THE LAND OWNER OR TENANT EVEN IF LAND IS NOT POSTED.

The MHA Tribal Ranch/Buffalo Project is NOT WITHIN the exterior boundaries of the Fort Berthold Indian Reservation – tribal tags are not valid outside the boundaries of the Reservation.

7. AREAS CLOSED TO HUNTING:

It shall be unlawful to hunt or pursue game in the following areas:

- 1) The buffalo pasture located in Unit #1 (Mandaree Area) known as Range Unit 904 in the Skunk Creek Bay Area—this unit is designated as a Wildlife Reserve Area and no hunting is allowed.

8. HUNTING BIG GAME OVER BAIT:

Hunting big game over bait on TAT public tribal land or ND Game & Fish Department's Wildlife Management Areas (WMAs) is prohibited. Hunting big game over bait is defined as the placement and or use of bait(s) for attracting big game and other wildlife to a specific location for the purpose of hunting. Baits include but are not limited to grains, minerals, salts, fruits, vegetables, hay or any other natural or manufactured foods. The designation does not apply to the use of scents and lures, water, food plots, standing crops, or livestock feeds being used in standard practices.

9. AGE REQUIREMENTS:

To purchase a Deer Bow license, persons must be 14 years of age or older on the opening day of the season. Persons under age 15 afield with archery equipment must be under direct supervision of parent, guardian or adult authorized by their parent or guardian.

Hunter's Education Requirement: Hunters born after December 31, 1961 must complete a certified tribal or state hunter education course and PRESENT the certification card earned to the license vendor in order to purchase a Fort Berthold hunting license. EXCEPTION: Veterans of the United States Armed Forces that have been honorably discharged – persons applying for this exemption MUST present a copy of form DD214 to the TAT Fish & Wildlife office to be eligible.

10. AIRCRAFT, MOTOR-DRIVEN VEHICLES, LIGHTS:

It shall be illegal to use all types of aircraft, manned or unmanned (i.e. drones), for spotting game 72 hours prior to and during the hunting season. A licensee cannot hunt the same day he/she is airborne over his/her hunting unit, except on a scheduled passenger airline flight. It is illegal to drive, concentrate, rally, raise, stir up, spot or disturb game with all types of aircraft, manned or unmanned, and any motorized vehicle.

Motor-driven vehicles may not be used to pursue game. Motorized vehicles may not be used to retrieve a big game animal until the animal has been taken into possession and legally tagged.

It is illegal to shoot with bow and arrow or firearm while in or on a motor-driven vehicle or boat.

No person may carry a firearm with a cartridge in the chamber in or on a motor-driven vehicle while hunting big game animals. The entire cylinder of a revolver is considered the chamber, requiring the revolver to be completely unloaded. Handguns with removable magazines must have the magazine removed from the firearm if the magazine contains any loaded shells. It is illegal to carry any muzzleloading firearm in or on a motor-driven vehicle with a percussion cap or primer on the nipple or powder in the flash pan.

Motor-driven vehicles may be used only on established roads or trails. Exception: After a deer has been killed and properly tagged, a motor-driven vehicle may be used to make the retrieval by leaving the established road or trail and proceeding to the carcass by the shortest accessible route, and returning to the road or trail immediately by the same route. Except for persons having a special disability permit, no person may use a motor-driven vehicle while in the process of hunting deer or aid another in the process of hunting deer including travel to and from the hunting location unless the motor-driven vehicle is on an established road or trail. Persons with a disability permit may not have any other passenger within the vehicle nor the driver, if someone other than the permittee, may be the hunter, unless such other person is also a permittee with her/his own permit.

ESTABLISHED ROADS OR TRAILS DO NOT INCLUDE TEMPORARY TRAILS ACROSS CULTIVATED LAND AND PASTURES USED FOR AGRICULTURAL PURPOSES.

It is illegal to engage in shining for big game with any artificial light for the purpose of locating or observing big game between sunset of one day and sunrise of the next.

The use of night vision equipment, electronically enhanced light gathering optics or thermal imaging equipment for locating or hunting game is illegal.

11. MANNER OF TAKING:

It is legal to use a horse in the process of hunting Deer.

It is illegal to use a dog as an aid to hunting Deer.

It is illegal to take or attempt to take a Deer by dragging a wire, rope, or other contrivance.

12. TAGGING:

IMMEDIATELY after an animal has been killed and before moving the animal, the hunter must indicate the date of kill by cutting out the appropriate month and day from the tag provided with the license and attach it to the base of the antler on antlered deer or in a slit in the ear on antlerless deer as illustrated on the tag backing to prevent its removal. In no case is it legal to possess or transport an animal unless it is properly tagged. The meat (carcass) tag must remain with the edible flesh (carcass) during transportation and until it is cut up and packaged as food. No person may re-use or attempt to re-use any tag issued. When any part of an animal is mounted, if the tag is removed from the antlers or ear, the tag must be securely fastened to the back or bottom of the mount and remain there. Tags are not transferable.

13. TRANSPORTING AND PROCESSING:

License holders must accompany their game animal, or parts thereof, (excluding hide) during transportation. Except that a permit for the transportation of game may be issued by the TAT Fish & Wildlife Department upon request. Game may be shipped by public carrier in receipt of a proper bill of lading.

A deer carcass or boned out meat must be accompanied by the head to the final place of storage. Exception: Tag as currently required, then take two pictures, using a cellphone with location and date and time stamp turned on. One picture of the entire animal at the kill site with tag attached, and a second picture of a closeup of the tag so that tag information is readable. Drop off the head at a CWD collection site properly tagged or if you leave the deer head in the field at the kill site, after taking pictures and saving them, the ear or antler with the tag attached must be cut off and accompany the meat or carcass while in transport. The photographs of the tagged deer must be shown to any game warden or other law enforcement officer upon request.

It is illegal to possess or transport another's game animal or parts thereof (excluding hides) without the license holder accompanying or as otherwise permitted. Processed and packaged meat of legally harvested game may only be gifted to another (but not sold, traded or bartered). Un-processed, un-packaged meat of legally harvested game may be gifted (but not sold, traded or bartered) as follows: 1) Prior to reaching the licensee's permanent residence, a transportation permit must be obtained and accompany the game meat. 2) After reaching the licensee's permanent residence if accompanied by the carcass tag of the person who harvested the game.

Commercial processors and common carriers may possess any person's legally taken possession limit of game. The meat (carcass) tag from the individual's license shall accompany the edible flesh (carcass) through processing and be returned to the individual to be kept until the meat is consumed or until March 31, 2023.

14. CLOTHING REQUIREMENTS:

All Deer bow hunters are required to wear legal orange clothing while the Deer Gun (November 4 - November 27, 2022) season is in progress. Legal orange clothing is a head covering and outer garment above the waistline of solid daylight fluorescent orange color totaling at least 400 square inches.

15. WANTON WASTE:
