Resolution #87-07-C

# RESOLUTION OF THE GOVERNING BODY OF THE THREE AFFILIATED TRIBES OF THE FORT BERTHOLD RESERVATION

WHEREAS, This Nation having accepted the Indian Reorganization Act of June 18, 1934, and the authority under said Act; and

WHEREAS, The Constitution of the Three Affiliated Tribes generally authorizes and empowers the Tribal Business Council to engage in activities on behalf of and in the interest of the welfare and benefit of the Tribes and of the enrolled members thereof; and

- WHEREAS, The Garrison Reformulation Act, Pub. L. 99-294, authorized the Secretary of the Interior to develop irrigation in the following project service areas within the exterior boundaries of the Fort Berthold Indian Reservation: Lucky Mound (7,700 acres) and Upper Six Mile Creek (7,500 acres).
- WHEREAS, The Garrison Reformulation Act, Pub. L. 99-294, authorized and directed the Secretary of the Interior to construct, operate, and maintain such municipal, rural and industrial (MIR) water supply systems as he deems necessary to meet the economic, public health and environmental needs of the tribal people on the Fort Berthold Reservation;
- WHEREAS, The Tribal Business Council directed the Legal Department, in conjunction with the BIA and Bureau of Reclamation (BREC), to develop a Memorandum of Understanding (MOU) between the respective authorities that would provide a time table and standards for the development of these authorized projects on the Fort Berthold Reservation;
- WHEREAS, The Legal Department has submitted for Tribal Business Council review and approval the proposed final draft MOU to accomplish these identified purposes;
- WHEREAS, The Tribal Business Council, after its review of the MOU, believes it provides the basis for the cooperative work of the Tribes, BIA, and BREC to carry out the projects authorized for development on Fort Berthold by Pub. L. 99-294;

NOW THEREFORE BE IT RESOLVED, That the Tribal Business Council hereby:

(1) Approves the proposed MOU attached herein as Exhibit "A"; and

Exhibit

UNITED STATES DEPARTMENT OF THE INTERIOR BUREAU OF RECLAMATION

Memorandum of Understanding between Bureau of Reclamation and The Three Affiliated Tribes and Bureau of Indian Affairs

The Bureau of Reclamation, hereafter referred to as "Bureau", the Three Affiliated Tribes, hereafter referred to as "Tribes" and the Bureau of Indian Affairs, hereafter referred to as "BIA" enter into this agreement effective \_\_\_\_\_\_\_\_ to define the working relationships and responsibilities of the Bureau, Tribes and BIA during the collection and analysis of data, design of irrigation and municipal, rural and industrial water systems, and the preparation of a report and EIS on the proposed systems for the Fort Berthold Reservation.

Signatures:

Sec. Car

B.E. Martin, Regional Director Bureau of Reclamation

Three Affiliated Tribes

Area Director Bureau of Indian Affairs

### Article I. Authority

3 4

The Secretary of the Interior is authorized to develop irrigation in the following project service areas within the boundaries of the Fort Berthold Indian Reservation: Lucky Mound (7,700 acres), Upper Six Mile Creek (7,500 acres), except that, no funds are authorized to be appropriated for construction of these projects until the Secretary has made a finding of irrigability of the lands to receive water as required by the Act of July 31, 1953 (67 Stat. 266; 43 U.S.C. 390a). Repayment for the units authorized under this subsection shall be made pursuant to the Leavitt Act (25 U.S.C. 386a).

The Secretary is authorized and directed to construct, operate, and maintain such municipal, rural, and industrial water systems as he deems necessary to meet the economic, public health and environmental needs of the Fort Berthold Reservation.

The Tribal Business Council serves as the duly elected representative of the Three Affiliated Tribes whose homeland is the Fort Berthold Reservation and has the authority under Article VI, Section 3 of the Tribal Constitution to enter into agreements on behalf of the Tribes.

### Article II. Scope of Work

Irrigation studies will involve a determination of irrigability as defined in PL 99-294 (land classification and drainage assessment); an engineering layout and design, a determination of capital cost and annual OM&R, an environmental assessment possibly leading to an Environmental Impact Statement, and a social analysis.

The municipal, rural and industrial water studies will involve a determination of need, an engineering design and layout to meet the needs, an assessment of construction and operating costs and a determination of environmental and social impacts.

Both the irrigation and municipal, rural and industrial analysis will be presented in a definite plan report.

Work was initiated in FY 1986 under the legislative authority and appropriations provided by the Garrison Diversion Unit and are identified as part of this MOU.

Responsibilities of the Bureau of Reclamation and the Three Affiliated Tribes for completion of the tasks and the budget is as follows.
